OUR VALUES

ITW REAGENTS

In 2010, the ITW Reagents division was born from the integration of the companies Panreac Quimica SLU (Spain) and Nova Chimica Srl (Italy), and later AppliChem GmbH (Germany). With the aim of bringing together the experience and know-how of these three well-established companies, the division offers the highest quality and innovative products for analysis, research and production applications.

OUR OFFER

We have been accompanying the pharmaceutical industry in the development of its products for more than 75 years. Selecting, analyzing, producing and supplying the best **raw materials** for their manufacturing processes and the most suitable **excipients** for the final formulation.

Final products

- Diluents / Fillers
- Binders
- Lubricants
- Coatings
- Acidifiers
- Disintegrants
- Buffering agents
- Preservatives
- Solvents / Co-Solvents
- Antioxidants
- Wetting agents
- Flavouring agents
- Humectants
- Emulsifiers
- Stabilizers
- Effervescence agents

ITW Reagents

A photograph of an industrial facility, likely a chemical or pharmaceutical plant. The scene is dominated by large, cylindrical stainless steel storage tanks on the right, supported by concrete pillars. A complex network of blue-painted metal structures and silver pipes runs across the facility, extending into the distance. The sky is clear and blue. The overall impression is one of a well-maintained, large-scale industrial operation.

Our goal is to make your work easier
so you can save on time and resources.

OUR FACILITIES

The ITW Reagents division has **two production plants** in Darmstadt (Germany) and Barcelona (Spain). We have invested and developed state-of-the-art, purpose-built facilities to meet the needs of our customers. Both sites offer high quality, scalability and flexibility for small to large scale production.

ANALYTICAL CAPABILITIES

Through our commitment to quality, we aim to satisfy the needs of our customers, whilst safeguarding the health and safety of our employees, respecting the environment, and managing and guaranteeing the quality of our processes, services, and products.

PanReac
AppliChem
ITW Reagents

Our laboratories monitor compliance with the specifications of the main pharmacopoeias (USP, Ph. Eur.) and the regulations on raw materials and finished products. We apply general analysis techniques, checking for trace metal impurities, using chromatography to determine solvent purity, detecting impurities as well as conducting microbiological tests.

We want to assure our customers that we fully share their commitment to caring for the environment whilst maintaining the highest standards of quality.
